## Letter to US Ambassador to the UN, H.E. Kelly Craft

Dear Se	enator	: Date:		
Thank	you very much for your service	e and your work for the neonle	e of	
•				
Camero United I	oon military against the popul Kingdom Administration, also	ations of the former <i>United Nat</i> known as Ambazonia. As con	o end the war of extermination being waged by the tions Trust Territory of Southern Cameroons under stituents who have family members and friends in situation and the lives being lost.	
	nt to ask you to write a letter by Council in the month of Dec		ng her to demand, as she presides the UN	
1.	The United Nations Security Council immediately mandate an Independent International Fact-Finding Mission to investigate reports of serious human rights violations and abuses in the Anglophone North West and South West regions. We strongly believe that an UN-mandated Independent International Fact-Finding Mission would have the immediate effect of quelling violence and saving lives. The establishment of an Independent International Fact-Finding Mission for Myanmar and Sri Lanka had the immediate effect of dissipating much of the violence on the ground. Given that this December is the United States' turn to preside over the Security Council, now is the time to make this request.			
2.	The Security Council hold a formal Briefing on the conflict.			
3.	The Security Council add Cameroon as a permanent item of its Agenda as requested by leading human rights organizations as a way to pressure the regime to halt the violence.			
Again, t commiti request	ment to promoting democrac	service and for taking the time y and human rights for all peop	e to consider this matter. We trust in our nation's ole, and we are honored to be able to make this
